

## Syntilo 81 BF

Synthetic coolant

### Description

Castrol Syntilo™ 81 BF is a synthetic coolant which has been developed for use as a general purpose grinding fluid for ferrous metals. It forms a clear, stable solution in both hard and soft waters. Syntilo 81 BF exhibits very good anti-corrosion properties coupled with a high resistance to bacterial attack.

### Application

Syntilo 81 BF is developed for surface, cylindrical, double disk and centreless grinding

### Advantages

- Low foaming in all water conditions to ensure continuous grinding performance
- Inhibits microbial growth to extend fluid life in central systems and individual sumps
- Rejects tramp oil to the surface of the fluid for easy removal
- Boron, chlorine, phenol and nitrite free for environmental compliance
- Maintains corrosion protection in hard water
- Settles chips quickly to prevent grinding wheel build-up and maintain a clean working environment

### Typical Physical Characteristics
